CENTER OF EXCELLENCE

STRATEGIC HUMAN CAPITAL MANAGEMENT

FOMC is home to 6 Centres of Excellence which aims to foster area specific research and activities under their umbrella. Currently, there are 6 Centres of Excellence namely Centre for Business Data Analytics, Centre for Investment in Capital Markets, Centre for Emerging Technologies, Centre for AI, Centre for Excellence in Research Analytics and Centre for Strategic Human Capital Management. Under these centres, regular activities like training, hands on workshops, hackathons, internships, research related activities are organised. The Centres are run by a team of Faculty as the Head and enthusiastic students who manage the activities under them. These Centres of Excellence are also breeding grounds of innovative ideas and research in their respective domains, ensuring a synergy of academia and industry partnerships.

OUR VISION

To be the leading global hub for innovative human capital strategies that drive organizational excellence.

OUR MISSION

Our mission is to empower organizations with cuttingedge HCM knowledge, tools, and expertise, fostering a culture of continuous improvement and sustainable success.

PES UNIVERSITY

PES University, located in Bangalore, India is one of the country's leading teaching and research universities. The University is committed to providing "navigation for the real world" that inspires students to find their true north.

FACULTY OF MANAGEMENT & COMMERCE

The Faculty of Management Studies at PES University, nestled in Bengaluru's vibrant core, stands as a paragon of academic excellence and innovative pedagogy in the realm of business education.

ABOUT THE SUMMIT

In last few years, HR has gone through various challenges with the advancement of technology. To survive these changes, the organizations need to revamp themselves by changing their strategies and processes that elevate the employee experience as well as enhance the performance leading to the successful achievement of the organizational goals and business objectives. CHROs play a key role in paving the way for organizational growth as well as by upgrading themselves.

The HR leaders need to prepare the organization and the workforce to be future ready to deal with the challenges posed by the robotized world. But today, HR is moving from people science to data science – about people. It's an important shift for business and HR.

HR Tech Summit, organised through CoE, Strategic Human Capital Management, FOMC, PES University will highlight how savvy HR leaders lead the way as digital transformation precipitates a quantum leap and how HR can interact with their people throughout the talent lifecycle.
