The **Automation & Robotics Center (ARC)** is being established at **PES University, Electronic City Campus**, to bridge the skill gap between industry needs and engineering education. This initiative is driven by a collaboration between PES University and **KUKA Robotics**, Industry partners, and various industry associations. With the support of experienced professionals, senior faculty from leading academic institutions, and industry experts, ARC aims to equip students with **cutting-edge skills in automation and robotics**.

Through hands-on training, guest lectures, and industry-led projects, students will gain exposure to **emerging technologies across multiple domains**, preparing them for promising careers in the rapidly evolving automation and robotics sector. This center will serve as a hub for innovation, knowledge sharing, and industry-academia collaboration, ensuring that future engineers are industry-ready.
